## BARRIERS<sup>®</sup>

Protected by Patent

# WORLDWIDE LEADER IN TRACK PROTECTION

# TECPRO

## BARRIERS®

Protected by Patent

**TECPRO is a revolutionary system of low-wall protection in the go-kart field.**

**You want:**

- 1 safety 2 profitability 3 aesthetics**  
**TECPRO is your ideal partner!**

### **SAFETY**

-  Absorbs best shocks.
-  Minimizes equipment breakage and impact on drivers.
-  Cancels a boomerang effect.
-  Obtains an anti-embedded effect.
-  Obtains an anti-slow down effect.

**Our efficiency and seriousness is recognized by the international federations and by the CIK FIA (Motorcar International Federation).**

### **PROFITABILITY**

-  **Space advantage**  
Compared to other systems (tyres, bunch of straws, plastic tubes, ...) the TECPRO system is the less voluminous (50%).
-  **Saving of time**  
A 1/3-of-a-time race track can be reset by one operator in 15 minutes, whereas 2 hours are necessary with another system.  
A 1/3-of-a-mile race track can be equipped by 4 operators in two days; as a comparison the other systems demand several weeks.
-  **Mobility**  
One 1/3-of-a-mile race track can be reshaped entirely in one day by 4 people; thus you have the possibility to offer easily a brand new track to your customers.

## TECPRO BARRIERS

TECPRO is a low-wall protection made of polyethylene and gum, hollow in the inside, linked together by double or triple nylon straps.

TECPRO low-walls can be shaped perfectly to any curves and turns of race tracks.

Three units of production:  
Europe, USA and China.

The TECPRO system is protected  
by international patent.

**Low-walls dimensions in cm  
(length x height x width):**

- 1** 60 x 30 x 25 (Mini Go-Kart)
- 2** 100 x 50 x 40 (Go-Kart)
- 3** 120 x 80 x 40 (Go-Kart and Roller Skates)
- 4** 150 x 120 x 60 (Formula 1)

*Equipment of a track in Las Vegas, USA.*
